HR Diversity & Inclusion Dashboard

Virtual Case Experience

This dashboard is designed to help the **HR Team** assess the organization's **progress in diversity & inclusion**. It provides insights into key metrics related to **hiring, promotion, performance, and turnover**, enabling data-driven decision-making to foster an inclusive workplace.

Key Focus Areas:

-  **Hiring** – Understand gender representation in recruitment trends.
-  **Promotion** – Analyze promotion patterns across job levels.
-  **Performance** – Compare performance ratings across genders.
-  **Turnover** – Identify turnover trends based on gender, job level, and age group.

Explore the dashboard to gain valuable insights into workforce diversity and inclusion!

Key Insights

◆ Hires:

- Since 2013, the percentage of women hired has steadily increased, reaching 51% by 2020.
- The Director-level positions have fewer women compared to men.
- The Strategy department has the lowest number of female employees.

◆ Promotions:

- In FY20, only 8 female employees were promoted.
- No female employees were promoted at the Director or Executive levels in FY20.
- In FY21, only one female employee was promoted at the Executive or Director level.

◆ Performance:

- The performance ratings of male and female employees in FY20 and FY21 are similar.

◆ Turnover:

- The turnover rate for men is higher than for women.
- The 40-49 age group has the highest turnover compared to other age groups.
- Junior Officer-level employees have the highest turnover rate.
